The IMPACT Learning Model

Key findings

- The IMPACT Pedagogical Model is a valid and transferable model for any schooling context and classroom; in-person, blended, fully online and highly-flexible learning.
- The six elements provide a dynamic common language for differentiated teaching and learning that can be used across all year levels and curriculum areas.
- It aligns and integrates evidence-based pedagogical approaches, practices and high-impact teaching strategies, and enhances them to provide clarity and continuity.
- It supports the development of future-ready students, educators and schools.
- It underpins a whole school approach to pedagogy that emphasises a collective impact on student and staff success.
